Living through history is not fun. Hear about living through the Colonial Pipeline hack: <https://t.co/r4h0caCh9i>. #ransomware #cyberattack #digitalrisk #riskprotection

@EricBar66116697 @juanmlo23201736 @DonaldJTrumpJr I agree that canceling KXL was a bad decision, but that is not a current factor in energy independence. Gas prices are going up because the economy is recovering from the pandemic and temporary supply issues resulting from the Russian cyberattack on the Colonial pipeline.

OPINION:
What we saw in recent weeks in the wake of the cyberattack on Colonial Pipeline, one of our major domestic energy

pipelines, brought the 1970s malaise back into focus.
