The Colonial Pipeline cyber attack is a warning of worse to come [Worry]
via @FT\r\n<https://t.co/rCwbPTRdoP>

@papaQ1957 right. It's not what "we" did. It's what private company, Colonial Pipeline, supposedly paid. The US didn't do anything. Agree that the long term implications are poor. I wish we had invested more in cyber security back in 2017 when we realized how bad things could get.

[Disappointment]

Fascinating follow-up thread to the Colonial Pipeline cyber attack. Very strange to be in a situation where we may never know full details.

<https://t.co/GVWU3yezBf>
